Web based MIS for the  
entire school community

## Your school, run your way

### About iSAMS

iSAMS founders Alastair Price and Greg Pakes attended Rugby School, where they often saw teachers frustrated by inadequate admin software. When they found there was nothing suitable on the market, they decided to create a comprehensive, web-based school administration management system. By working in consultation with the school, they designed a secure, flexible and easy-to-use system which helped teachers communicate quickly and clearly with students, parents and guardians, forming an inclusive online school community.

### Moving to iSAMS

Migrating to a new management information system is easier and less stressful than you might think, even if it seems daunting right now. You'll have all the help you might need, from system installation and data transfer through to training, report creation and bespoke system set-up.

We've migrated more than 600 schools across the world to iSAMS, from bespoke in-house systems to those moving from SchoolBase, SIMS, WCBS, Double First and others. So no matter what system you currently use, we have the knowledge and expertise to effectively manage a smooth transfer of your data.

### Why choose iSAMS?

- Your school will benefit from a market-leading, browser-based MIS with integrated portals and apps - developed specifically for schools and how you like to operate.
- iSAMS is a central database which securely stores all student, parent and staff data – critical for the successful running of any school.
- The modular set-up means your system can evolve to meet your specific school needs.
- Our dedicated apps for teachers, parents and students provide enhanced communications and instant access to key information.
- New features and enhancements are constantly added through regular system updates.
- You have immediate access to ongoing support and training services.
- The iSAMS Marketplace offers you seamless two-way integration with approved third-party apps and systems.
- You'll be one of more than 600 schools whose feedback guides the further development of the most sophisticated school management software available today.

We're excited to show you how much easier you could find it to run every area of school life. To find out more or to book a meeting, email us at [sales@isams.com](mailto:sales@isams.com) or call us on **+44 (0)1604 659100**.
